PROFESSIONAL SUMMARY

Final-year Artificial Intelligence graduate (BS AI, COMSATS University Islamabad, Attock Campus) with strong foundations in Machine Learning, Deep Learning, Computer Vision, and Generative AI. Built and deployed an end-to-end AI-powered video analysis system as a capstone project, alongside a portfolio of practical ML applications covering classification, regression, and NLP. Skilled in Python, FastAPI, React.js, and Prompt Engineering. Seeking an AI/ML Internship or Junior AI Engineer role at a leading Pakistani IT firm.

PROJECTS

Smart Classroom Monitoring System FINAL YEAR PROJECT
Python · **OpenCV** · **I3D** · **LSTM** · **FastAPI** · **React.js** · **Tailwind CSS** · **SQLite**

- AI-powered teacher activity recognition using I3D + CNN video models
- Automated video summarization and highlight extraction
- Punctuality tracking, timetable validation, and automated alerts
- Admin dashboard with backend APIs, analytics, and attendance reporting

Employee Attrition Prediction
Python · **Scikit-learn** · **Logistic Regression** · **Random Forest** · **Streamlit**

- End-to-end deployed ML app on the IBM HR Analytics dataset
- Full pipeline: EDA, preprocessing, model comparison, and feature importance
- Evaluated with precision, recall, F1-score, and confusion matrix

Live App · GitHub Repository

Credit Card Fraud Detection
Python · **Scikit-learn** · **Imbalanced Classification**

- Handled highly imbalanced transaction data using resampling techniques
- Evaluated model performance using precision, recall, and F1-score

Spam Email Detection
Python · **NLP** · **TF-IDF** · **Scikit-learn**

- Built a text classification pipeline using TF-IDF vectorization
- Applied NLP preprocessing for spam vs. ham email detection

Customer Churn Prediction
Python · **Logistic Regression** · **Random Forest**

- Compared multiple classification models to predict customer churn
- Performed feature analysis to identify key churn drivers

EDUCATION

BS Artificial Intelligence
COMSATS University Islamabad, Attock Campus
2022 - 2026 (Final Year)

Intermediate (FSc, Pre-Engineering)
The East School & College Jehangira, BISE Mardan
2021 - 2022

Matric (Science)
The East School & College Jehangira, BISE Mardan
2018 - 2020

SKILLS

Programming
Python, OOP

Machine Learning
Classification, Regression, Clustering, Model Evaluation

Deep Learning
ANN, CNN, LSTM, I3D

Computer Vision
OpenCV

Generative AI
LLMs, Prompt Engineering

Web Development
FastAPI, React.js, Tailwind CSS

Tools
Pandas, NumPy, Scikit-learn, Streamlit, TF-IDF, SQLite, Git, GitHub, VS Code

CERTIFICATION

One Million Prompters (2026)
Prompt Engineering Certificate — Prompt Design, LLM Interaction, AI Content Generation

LANGUAGES

Pashto — Native
Urdu — Native
English — Professional

SOFT SKILLS

Problem Solving · Quick Learner · Team Collaboration
Communication · Adaptability · Time Management
